

CRITICAL PROACTIVE STEPS YOU CAN TAKE BEFORE THE CERTIFICATION OF THE NOVEMBER 2024 GENERAL ELECTION:

Please be peaceful, respectful and lawful when performing the following tasks:

1. **If you reside in Chester County, Pennsylvania please attend your local commissioner and board of elections meetings immediately and ask for answers to how these patterns are happening.** Attend each meeting until the November election. There are public comment periods during the meetings. In Chester County, each person gets 3 minutes to speak, other counties and states may vary. Dates and times of these meetings in Chester County are posted [HERE](#). They are generally on weekdays in the mid-morning. Contact your commissioners at their offices by phone and email. Ask for the elimination of all-voting machines this November and that all ballots, including mail-in ballots, are hand counted at the precincts. **Say NO to centralized hand counting done by Voter Services, even in an emergency.** Ask them to train all of their Judges of Elections, Majority Inspectors, Minority Inspectors and clerks (poll workers) how to hand count ballots before November. A helpful resource may be to review [25 Pa. Stat. § 3062](#) which addresses how ballots were counted in PA prior to voting machines. Additional resources are available [here](#) and [here](#).

CHESTER COUNTY COMMISSIONERS:

JOSH MAXWELL	610-344-6151
MARIAN MOSKOWITZ	610-344-6691
ERIC ROE	610-344-6031

2. **Do a lowest/highest analysis for both parties on the 2022 General Election to determine precincts where poll watchers should be placed for November 2024.** Get the 2022 precinct report from your county government website under the election results archive section. This might be found under an elections tab, voter services tab, etc. See which Republican candidate has the lowest vote total in each precinct, and which Democratic candidate has the highest vote total in each precinct. Then do the reverse. Which Democratic candidate has the highest vote total, and which Republican candidate has the lowest vote total throughout every precinct. **Poll watchers should go to any precincts that do not follow the patterns that appear in the analysis, and also any precincts that show tie races in the analysis (for example, two races both get the lowest vote total of all R candidates).**
3. **Take close-up pictures (in sections, top to bottom) and videos of all of the printed out voting machine tapes at the end of the night on election day at your precinct (after 8 p.m.). Make sure the photos and videos are clear and every race and their votes are clearly readable. For the videos, start at the top of the tape and work down to the bottom. Keep the video under one minute long.** They should be hung up on a door or in an area for the public to view at each precinct. PA Election Code Article XI-A, Section 1113-A (f) indicates that regarding the tapes, one such record shall be **publicly posted** at the district polling place. [HERE](#) is the [election code](#) you can print out and show if you have any issues. If you can get to other precincts and take pictures/videos of theirs, please do. **Also have mail-in ballot observers ask for printed out copies of the mail-in ballot tabulator reports after the batches are finished being counted.** If you cannot get a copy, write down all the races and their vote totals in a notebook. In Chester County, Take pictures of the reports (or your notes of the results) and make sure they are clearly readable, then upload the tapes and reports to <https://votepatterns.com>. Pictures and videos of tapes/reports from every precinct need to be obtained in case any issues arise that prevent the election night reporting websites from functioning or being able to give results. These tapes, videos and reports will be analyzed with the lowest vote total and highest vote total analysis for each party to see if any patterns appear. All precinct tapes/reports are needed so they can all be compared to each other. If you do not live in Chester County, find someone to organize where all of this information should be collected.
4. **If there are no issues with your county's internet website, and precinct reports are available, as soon as your county posts their election results on the internet on election night, print out and take pictures and videos of your precinct's results and every individual precinct's results that you can in the county. Make sure you get pictures and video of all the races' scores.** All precinct reports for the entire county need to be obtained as soon as possible. Have printer ink ready in your printer. Videos need to be under 1 minute long. In Chester County, upload pictures and videos of your online precinct report to <http://votepatterns.com>.
5. **Record how many votes each Republican and Democratic candidate won or lost their race by in each precinct.** Doing this showed clear patterns in previous elections. This also will show other races with patterns that might not originally

show up in the lowest/highest analysis, especially down-ballot races. Email your analysis of a Chester County precinct to info@votepatterns.com. You can also take pictures of your findings and upload them to <https://votepatterns.com>.

6. **Become a poll watcher at the most critical precincts in your county.** Be a poll watcher at a precinct that has not been following the patterns. Make sure you or others are there for the opening and closing of the precinct especially, but all day coverage is needed. Watch to make sure that no one is going into any back rooms or offices to make additional fraudulent ballots. Watch for bags or boxes going into other rooms. Ask to see the poll book at the opening of the day before voters arrive to make sure signatures are not already in them. Above all, make sure you follow your county's rules for poll watchers. If you are being blocked from accessing an area you believe you should be able to observe, ask a constable for assistance.
7. **Become a mail-in ballot observer.** Observe the transportation of them from the ballot intake area to the counting room if allowed. Watch for carts of ballots going in and out of side rooms they shouldn't be in. Stay until the very end of counting and ask to get a copy of or see the reports that come from the mail-in ballot tabulators. Take notes in a notebook of the race totals in the reports by batch. If a precinct's results are spread out in multiple batches, add the grand total up before taking a picture and uploading it. Take a picture/video of your notes, make sure it is clearly readable, and upload them to <https://votepatterns.com> if you live in Chester County.
8. **Vote in person, on election day. Do not vote by mail-in ballot.** Cast Vote Records from around the country show that early mail-in ballots are being manipulated. If there is cheating going on through voting machine manipulation, the one way to beat it is to have record turnout where everyone in the voter rolls is voting. Do not think that your vote is a waste of time due to cheating. It can overpower any cheat if enough people vote.
9. If you are a poll watcher at a precinct on election day, determine if the number of ballots handed out is tracked and, if so, find out and report that number at the end of the day. If the number of ballots given out is not being tracked, respectfully ask that they be counted as they are handed out to voters.
10. For poll watchers, be on the lookout for complaints from voters who are told that they already voted via mail-in ballot. Encourage any such voters to immediately register an identity theft claim with the local sheriff.
11. **It is becoming clear that the USB sticks need to be inspected by bipartisan members of the public before they are plugged into voting tabulators to make sure there are no preloaded ballots or unauthorized, additional software/malware etc. on them. The Election Management System also needs to be examined by a bipartisan group from the public to confirm no unauthorized software or hardware exists in it. What can be done so that there is a clear transparency as to what is on the county Election Management System and the USB sticks that go to the tabulators, immediately prior to each election? Who programs your county's USB sticks and voting machines before each election? Who runs the Election Management System? How can the public know there is not unauthorized software/hardware/malware on them? Please ask your local county commissioners for the answers to these questions.**
